Guaranteed admission to the 2nd Degree Accelerated BSX Program.

Admission to this program is competitive based on academic status and GPA. Satisfaction of prerequisites and fulfillment of minimum requirements does not guarantee admission to the 2nd Degree Accelerated BSX Program.

A 2.8 GPA is required for admission into the clinical portion of the 2nd Degree Accelerated BSX Program. This 2.8 GPA is determined upon the grades earned during the preclinical phase.

A minimum 2.8 cumulative GPA is required to be considered for acceptance into the 2nd Degree Accelerated BSX Program. Preclinical phase.

A minimum 2.8 cumulative GPA must be completed prior to enrollment in the preclinical portion of the preclinical phase.

Students will not be considered for admission to the preclinical support courses unless they have fulfilled the requirements of the co-requisite courses. Students will not be eligible for admission to the preclinical phase of the program.

A grade of C or higher is required in all core courses. Failure of an individual core course may result in the student being removed from the program. A grade of C- or higher in all core courses is required to be considered for admission to the preclinical phase.

All prerequisite support courses and academic support courses must be completed with a minimum grade of C- or higher. A grade of C- or higher is required in all core courses.
